## Wedding, Sweet 16 and Quinceanera Packages

The three resources that we all have access to are Time, Energy, and Money. Obviously, we have more of some than the others, so we have made packages that reflect these resources so that you may choose how best to allocate your own time, energy, or money.

### Time

We cannot create more time in our day, we can only manage the way we spend it. If you have plenty of time and wish to save on energy and money, we can help you with a **Consultation Package**. This package includes:

- 1.5 hour consultation with a 73-Productions event specialist.
- A list of vendors that are 73-Productions approved.
- A list of questions to ask to make sure that you get the most bang for your buck.
- Ideas on ways to eliminate costs and make your time more efficient.
- A generated timeline based on your personal needs and schedule to help you stay on target and on budget.

**This package is \$300**

### Energy

Knowing that we only have a set number of hours in our day, we know that the energy that goes into those hours needs to be useful. If you have plenty of energy, but are short on time or you wish to make better use of your energy during your event, we would like to recommend our **Day of Package**. This package includes:

- 2 consultations with a 73-Productions event specialist for 1.5 hours each. The first one during the planning stage and the second one 4 weeks before the event.
- A list of vendors that are 73-Productions approved.
- A list of questions to ask to make sure that you get the most bang for your buck.
- A generated timeline based on your personal needs and schedule to help you stay on target and on budget.
